T. CHOKKANNA,
Asst. Comr. & 1st Class Magistrate.

REVENUE DEPARTMENT.

Circular No. 5373-80, *dated* 20*th*—23*rd November* 1909.

The undersigned has the honour to draw the special attention of the Deputy Commissioners to Paras 1, 2, 4 and 5 of Government Proceedings No. 65-01—58-08-9 (P. W.), dated 6th August 1909, reviewing the Administrative Accounts of Major Irrigation Works for 1907-08, communicated with this office No. 3939-46, dated 22nd September 1909, and to observe as follows :—

2. In Government Proceedings No. R 16500-9—L. R. 705-05-2, dated 28th June 1906, it was directed that the Deputy Commissioners should submit the particulars due from the Revenue Department on or before the 15th August of each year. There has nevertheless been a delay every year in the submission of these particulars and in some cases figures are not being furnished. The only reason assigned for this delay from time to time is that the information had to be obtained after much correspondence from the taluks. The necessity for such correspondence with the taluks is not clear. The Deputy Commissioners are therefore requested to ascertain the real causes of the delay and take such action as will obviate such delays in future.

3. The omission to furnish figures, particularly those showing the area of lands irrigated by and the revenue derived every year from each irrigation work (columns 21 and 8 of the Administrative Accounts), appears to be still less justifiable and calls for a closer examination. Up to the year 1905-06, there might have been some real difficulty in obtaining these particulars But since that year, the Village Revenue Accounts, Forms Nos. 3B, 3C, 3D, and 3E, and the Taluk Atchkat Registers (introduced by Government Proceedings No. R. 747-57—L. R. 44-98-4, dated 18th July 1905) should have rendered it possible to supply accurate information to show the extent of lands irrigated by each source of irrigation and revenue derived therefrom during any year. And there need be no necessity either for constantly revising the figures once furnished for any year.

4. The accounts referred to in the preceding paragraph, the Tank Book and the results of the periodical inspections made by the Amildars and the Revenue Sub-Divisional Officers made in accordance with the Tank Maintenance Rules must be of great help in accounting satisfactorily for a rise or fall in the area of lands irrigated by every important tank or channel and in the revenue thereof for any year, as compared with similar details for the previous year (in columns 12 and 14 of the statements furnished annually to the Comptroller). The Deputy Commissioners are therefore requested to draw the attention of the Amildars and Sub-Division Officers to the standing orders referred to above and insist upon proper attention being paid by them to the fluctuations in the revenue derived from all important irrigation works in their charges. The results of such enquiries should also be mentioned by the Revenue Sub-Divisional Officers in para 5 (*b*) of their annual Administration Reports.

5. As the object of the Administrative Accounts in question is to determine the remunerative nature of the outlay on all the large irrigation works in the State, it is very essential to examine the variations in the actual annual revenue from what was promised when the works were taken up, at any rate for those taken up with a view to increase the revenue. Columns 7, 9, 10, 11, 12, 20 and 21 of these accounts are intended to provide the materials required for this purpose. But, in several cases, these particulars are either not furnished or said to be not available, though, as stated in para 5 of the Government Order of 6th August 1909, the information should be available in the Taluk Offices.

6. In this connection, the Deputy Commissioners are also requested to state at an early date whether the detailed enquiries ordered in para 7 of Government Order No. R. 12251-60—R. M. 458-05-1, dated 23rd March 1906, with a view to ascertain the real causes of the poor return in the case of certain works, were duly instituted, and if so, the result of the same may be intimated.
